Product	Tofu Cat Litter
Inspection scope	Sensory and physicochemical characteristics
Source record	Internal factory inspection worksheet

No.	Category	Inspection item	Specification	Result
1	Sensory	Appearance	Uniform and stable color; no obvious color variation; no moldy particles; no foreign matter or edge trimmings	Off-white to pale yellow; no mildew or foreign matter
2	Sensory	Odor	No musty or irritating odor	No musty or irritating odor
4	Physicochemical	Dust content	Dust content on arrival $\leq 0.3\%$	0.20%
5	Physicochemical	Moisture	$\leq 10\%$	8%
6	Physicochemical	Particle size	1.5 +/- 0.2 cm / 2.0 +/- 0.2 cm	1.5 / 1.6 / 1.65 cm
7	Physicochemical	Hardness	≥ 30 N	43 N
8	Physicochemical	Water absorption rate	$\geq 75\%$ actual water absorption	95%
9	Physicochemical	Water absorption speed	≤ 6 s	4 s
10	Physicochemical	Clump penetration depth	At 6 cm litter depth: no bottom seepage; at 4 cm: slight bottom seepage	No bottom seepage at 6 cm
11	Physicochemical	Clump strength	No obvious breakup after a 1 m drop; loosened proportion $\leq 10\%$	6%
12	Physicochemical	Clump durability	After 16 h, scooping causes no breakup; loosened proportion $\leq 5\%$	2%
13	Physicochemical	Clump weight	46.5 g	45 g
14	Physicochemical	Bottom sticking	No sticking; any slight sticking can be removed easily with a scoop	Conforms
